Facilities Technician
Full-time/Benefits Eligible

Monday – Friday 8:30 am - 5:00 pm*
*Flexibility with this schedule may be needed, depending on projects and ability to respond to emergencies when needed

Emerge Center Against Domestic Abuse has begun an organizational process of transforming philosophy and practice to acknowledge the root causes of violence as being embedded in multiple, intersecting systemic oppressions (sexism, racism, homophobia, transphobia, classism/poverty, able-ism, and anti-immigrant sentiment).

These conversations directly impact the climate and culture of our organization and are tied to the climate and culture in our community related to violence as a normalized experience. We are seeking team members across the organization who understand that humanizing the experience of all people is a radical act in a non-profit system and who are willing to be a part of transforming our organizational culture to be a more antiracist multicultural institution.

We are seeking job applicants who understand it is our responsibility to ensure that our responses to domestic abuse must include the experiences of those who are most in need and who have the least amount of access to help and support and who can work in an environment that is rapidly changing.

We’re committed to making our community a safer place for everyone. Join us!

The Facilities Technician position is responsible for the day-to-day maintenance, repairs and upkeep of the agency’s facilities, vehicles, along with occasional facilities-related projects, under the supervision and direction of the Operations Manager. Hours for this position may vary, depending on organizational need, ongoing projects, maintenance requests and facility emergencies. While small, the Facilities Team plays an important role in the organization, as they are key in ensuring Emerge’s facilities are clean and comfortable for the program participants we serve. Due to the nature of our work and the trauma that survivors have experienced, it is crucial that the Facilities Lead Technician is empathetic, flexible and uses clear communication skills with co-workers, participants and community stakeholders to ensure the needs of survivors are centered in the decision-making process.
